Special Issue on Macroeconomics

Call for Papers

Macroeconomics is a branch of economics dealing with the performance, structure, behavior, and decision-making of an economy as a whole. This includes regional, national, and global economies. Macroeconomists study aggregated indicators such as GDP, unemployment rates, national income, price indices, and the interrelations among the different sectors of the economy to better understand how the whole economy functions. They also develop models that explain the relationship between such factors as national income, output, consumption, unemployment, inflation, saving, investment, energy, international trade, and international finance.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Macroeconomics**. Potential topics include, but are not limited to:

- Inflation and growth
- GDP study
- National and public investment
- Income, consumptions and savings
- Economic recession and financial crisis
- Unemployment study
- Public finance
- Business cycle
- Macroeconomic fluctuations
- Monetary policy and fiscal policy
- Growth models
- General equilibrium model
- International finance and international trade
- Wage study

Authors should read over the journal's <u>For Authors</u> carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's <u>Paper Submission System</u>.

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue** – *Macroeconomics*" should be chosen during your submission.

According to the following timetable:

Theoretical Economics Letters

ISSN Online: 2162-2086

Submission Deadline	February 21st, 2020
Publication Date	April 2020
