

Special Issue on Monetary Economics & Policy

Call for Papers

Monetary economics is the branch of economics that studies the different competing theories of money: it provides a framework for analyzing money and considers its functions (such as medium of exchange, store of value and unit of account), and it considers how money, for example fiat currency, can gain acceptance purely because of its convenience as a public good. Monetary policy is the policy adopted by the monetary authority of a nation to control either the interest rate payable for very short-term borrowing (borrowing by banks from each other to meet their short-term needs) or the money supply.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Monetary Economics & Policy**. Potential topics include, but are not limited to:

- Quantity theory of money
- Behavioral monetary policy
- Monetary transmission mechanism
- Models for monetary policy analysis
- Monetary system
- Monetary reform
- Monetary policy and economic growth
- Macroeconomic effects of fiscal policy
- Savings and economic growth
- Central banking in theory and practice
- Tax and fiscal policy
- Government budget deficits
- Credit theory of money
- Monetary policy on interest rates
- Money supply and inflation
- Political economy and financial regulation
- Currency crisis
- Market monetarism

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Monetary Economics & Policy**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 20th, 2022
Publication Date	June 2022
