**Special Issue on**  
**Quantitative Economics and Econometrics**  
**Call for Papers**

Quantitative Economics and Econometrics is a field that applies mathematical and statistical methods to analyze economic phenomena and make predictions. It combines economic theory with empirical analysis to understand and quantify economic relationships. Econometrics involves the development and application of statistical techniques to test economic theories and estimate economic models using real-world data. Key topics include regression analysis, time series analysis, panel data analysis, and causal inference. Practitioners in this field use mathematical models to examine economic behavior, forecast trends, evaluate policy interventions, and assess the impact of various factors on economic outcomes. Quantitative Economics and Econometrics play a crucial role in informing policy decisions, understanding market behavior, and forecasting economic indicators.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Quantitative Economics and Econometrics**. Potential topics include, but are not limited to

- Econometric theory
- Macroeconometrics
- Microeconometrics
- Financial econometrics
- Stochastic models
- Qualitative methods
- Econometrics and statistical methods
- Time series analysis
- Panel data analysis
- General equilibrium analysis
- Bayesian econometrics
- Linear and nonlinear models
- Empirical industrial organization
- International econometrics
- Labor econometrics
- Public finance econometrics
- Forecasting and predictive modeling
- Empirical analysis and policy evaluation

---

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Quantitative Economics and Econometrics**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	July 5th, 2024
Publication Date	Septembr 2024

For publishing inquiries, please feel free to contact the Editorial Assistant at [submission.entrance1@scirp.org](mailto:submission.entrance1@scirp.org)
