

Special Issue on Cardiovascular Diseases and Risk Factors

Call for Papers

Risk factors for cardiovascular disease are particular habits, behaviors, circumstances or conditions that increase a person's risk of developing cardiovascular disease, including lack of exercise, unhealthy eating, smoking, diabetes, age and family history.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Cardiovascular Diseases and Risk Factors**. Potential topics include, but are not limited to:

- Cardiovascular risk assessment
- Screening and prevention
- Epidemiologic methods
- Prevalence of cardiovascular disease in adults
- Women and heart disease
- Lifestyle risk factors
- Behavioral risk factors
- Dietary patterns
- Exercise and cardiovascular health
- Genetic and environmental factors
- Psychological and social factors
- Coronary artery disease
- Heart failure
- Heart disease and stroke
- Cardiovascular disease and diabetes
- Cardiovascular and kidney disease
- Hypertension and cardiovascular risk
- COVID-19 and cardiovascular disease

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Cardiovascular Diseases and Risk Factors**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 28th, 2022
Publication Date	June 2022
