

## Special Issue on Coronary Artery Disease

### Call for Papers

Coronary artery disease involves the reduction of blood flow to the heart muscle due to build up of plaque in the arteries of the heart. It is the most common of the cardiovascular diseases. Types include stable angina, unstable angina, myocardial infarction, and sudden cardiac death.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Coronary Artery Disease**. Potential topics include, but are not limited to:

- Diagnosis and treatment
- Epidemiological study
- Coronary physiology assessment
- Ischemic heart disease
- Heart failure
- Arrhythmia
- Angina
- Surgical approaches
- Coronary bypass surgery
- Minimally invasive heart surgery
- Reconstructive surgery
- Cardiovascular medicine
- CAD and myocardial infarction
- Echocardiography
- Coronary angiography
- Cardiac catheterization
- Cardiac rehabilitation
- Risk factors and prevention
- Healthcare and lifestyle changes
- New methodologies and technologies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Coronary Artery Disease**” should be chosen during your submission.

---

According to the following timetable:

Submission Deadline	May 23rd, 2022
Publication Date	July 2022
