## Special Issue on Data Technology And Management

### Call for Papers

Data management is the process of ingesting, storing, organizing and maintaining the data created and collected by an organization. Effective data management is a crucial piece of deploying the IT systems that run business applications and provide analytical information to help drive operational decision-making and strategic planning by corporate executives, business managers and other end users. The goal of this special issue is to provide a platform for scientists and academics all over the world to promote, share and discuss various new issues and developments in **Data Technology And Management**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Data Technology And Management**. In this special issue, potential topics include, but are not limited to:

- Data Science
- Business Intelligence
- Data Warehousing
- Data Mining
- Big Data Analytics
- Machine Learning
- Data Governance
- Data Quality Management
- Data Integration
- Data Security and Privacy
- Data Architecture
- Data Visualization
- Advanced Analytics
- Cloud Computing for Data Analytics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Data Technology And Management**” should be selected during your submission.

Special Issue timetable:

Scientific Research  
*Open Access*

**World Journal of Engineering and  
Technology**

ISSN Online: 2331-4249

---

Submission Deadline	September 17th, 2023
Publication Date	November 2023
