

Dermatology is the branch of medicine dealing with the skin. It is a specialty with both medical and surgical aspects. A dermatologist is a specialist medical doctor who manages diseases related to skin, hair, nails, and some cosmetic problems.

In the present book, fifteen typical literatures about Clinical Dermatology published on international authoritative journals were selected to introduce the worldwide newest progress, which contains reviews or original researches on Clinical Dermatology. We hope this book can demonstrate advances in Clinical Dermatology as well as give references to the researchers, students and other related people.¹
