Open Journal of Organic Polymer Materials (OJOPM) is an international journal dedicated to the latest advancement of organic polymer materials. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of organic polymer materials.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Additives for Polymers
- Advances in Polymer Characterization
- Applications of Polymer Materials in All Fields and Disciplines
- Bioactive and Compatible Polymers
- Biopolymers
- Carbohydrate Polymers
- Functional Polymer Materials
- High-Performance Polymer Materials
- Light-Emitting Polymers
- Liquid Crystalline Polymers
- Main-Chain and Side-Chain Ionic Polymers
- Organometallic Polymers
- Plastics, Elastomers and Combinations Thereof
- Polymer Composites and Nanocomposites
- Polymer Degradation and Stability
- Polymer Gels and Networks
- Polymeric Fibers and Porous Media
- Polymers for Photovoltaic Devices
- Reactive Polymers and Macromolecular Reactions
- Synthesis of Polymeric Materials

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
