

Table of Contents

Volume 6 Number 11

November 2018

Premelting, Pressure Melting, and Regelation of Ice Revisited

C. T. Calderon, P. Mohazzabi.....2181

Integrability of Hamiltonian Systems with Two Degrees of Freedom and Homogenous Potential of Degree Zero

J. Llibre, C. Valls.....2192

Asymptotic Stability of the Dynamic Solution of an N-Unit Series System with Finite Number of Vacations

A. Osman, A. Haji, A. Ablimit.....2202

Some Important Properties of Multiple G -Itô Integral in the G -Expectation Space

F. Y. Liu, Y. Li.....2219

Kolmogorov Flow: Seven Decades of History

E. D. Fylladitakis.....2227

Uniqueness of Meromorphic Functions Whose Differential Polynomials Share One Value

J. Tao, X. L. Wang.....2264

Global Existence and Optimal Decay Rates for Three-Dimensional Compressible Viscoelastic Flows System with Damping

W. F. Xu.....2273

Multiple G -Stratonovich Integral Driven by G -Brownian Motion

Z. Li, F. Y. Liu, Y. Li.....2295

Numerical Simulation of Stochastic Kuramoto-Sivashinsky Equation

P. Gao, C. J. Cai, X. Y. Liu.....2363

Alpha Centauri System and Meteorites Origin

G. V. López, J. A. Nieto.....2370

Quantum Bit Error Avoidance

A. Y. Shiekh.....2382

Robust Finite-Time H_∞ Filtering for Discrete-Time Markov Jump Stochastic Systems

A. Q. Zhang.....2387

The Sun and Big G Measurements

J. L. Parra.....2397

Decay Rates of the Compressible Hall-MHD Equations for Quantum Plasmas

D. Jin.....2402

The Power of Group Generators and Relations: An Examination of the Concept and Its Applications

T. C. Zhou.....2425
