# Call for Papers

# World Journal of Condensed Matter Physics (wjcmp)

ISSN 2160-6919 (print)    ISSN 2160-6927 (online)  
<http://www.scirp.org/journal/wjcmp>

**World Journal of Condensed Matter Physics (WJ CMP)** covers the whole of condensed matter physics including soft condensed matter and nanostructures. Papers may report experimental, theoretical and simulation studies. Note that papers must contain fundamental condensed matter science: papers reporting methods of materials preparation or properties of materials without novel condensed matter content will not be accepted.

All the manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copies. The journal publishes original papers including but not limited to the following fields:

Correlated Electrons  
Dielectrics and Ferroelectrics  
Electronic Structure  
Liquids, Soft Matter and Biological Physics  
Magnetism and Magnetic Materials  
Nanostructures and Nanoelectronics  
Semiconductors  
Solid Structure and Lattice Dynamics  
Superconductors and Metals  
Surface, Interface and Atomic-Scale Science

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the WJ CMP.
