

TABLE OF CONTENTS

Special Issue on Bioinformatics and Biomedical Informatics

Volume 6, Number 2A, February 2013

Toward understanding the role of p53 in cardiovascular diseases

M. Chandrasekharan, S. Vasquez, R. K. Galimudi, P. Suravajhala.....209

Robust estimation of stochastic gene-network systems

C.-H. Chuang, C.-L. Lin.....213

Modeling of gene regulatory networks: A review

N. Vijesh, S. K. Chakrabarti, J. Sreekumar.....223

Ezetimibe Completely Replaced LDL-Apheresis for the Treatment of Familial Hypercholesterolemia and Coronary Artery Disease after CABG—A Case Report

I. Yokoyama.....232

A novel over-sampling method and its application to miRNA prediction

X. T. Dang, O. Hirose, T. Saethang, V. A. Tran, L. A. T. Nguyen, T. K. T. Le, M. Kubo, Y. Yamada, K. Satou.....236

The figure on the front cover is from the article published in J. Biomedical Science and Engineering, 2013, Vol. 6, No. 2A, pp. 209-212 by Mohanalatha Chandrasekharan, *et al.*
