## Subject Coverage

All manuscripts submitted to OJTS must be previously unpublished and may not be considered for publication elsewhere at any time during OJTS's review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. Topics to be covered by this journal include, but are not limited to:

- Atrial Septal Defect Repair
- Coronary Artery Bypass Surgery
- Creation of Shunt to the Pulmonary Artery
- Esophagogastrectomy
- Heart Transplant
- Laparoscopic Heller Myotomy
- Laparoscopic Nissen Fundoplication
- Lung Transplant
- Maze Procedure
- Minimal Access Cardiac Surgery
- Norwood Operation
- Removal of Portion(s) of the Lung Containing Cancer
- Repair of Coarctation of the Aorta
- Repair of Thoracic Aneurysms
- Thoracoscopic Sympathectomy
- Thoracoscopy or VATS
- Valve Repair or Replacement
- Ventricular Remodeling

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the OJTS.

## What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

## What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
