Communications and Network

ISSN 1949-2421 (print) ISSN 1947-3826 (online)

www.scirp.org/journal/cn

CN, an international journal, dedicates to the latest advancement of communications and network technologies. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas.

Editor in Chief

Prof. Hamed Al-Raweshidy, The University of Liverpool, UK

All manuscripts submitted to CN must be previously unpublished and may not be considered for publication elsewhere at any time during CN's review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. The topics to be covered by Communications and Network include, but are not limited to:

- ◆ Applications and value-added services
- ◆ Coding, detection and modulation
- ◆ Cognitive radio
- ◆ Communication tools and services
- ◆ Location based services
- ◆ MIMO and OFDM technologies
- ◆ Mobile computing systems
- ◆ Multimedia in wireless networks
- ◆ Network operation, maintenance and management
- ◆ Network protocol, QoS and congestion control
- ◆ Network security
- ◆ QoS and traffic analysis
- ◆ RFID and 802.1x technologies
- ◆ Sensor networks
- ◆ Wave propagation and antenna design
- ◆ WDM, HWDM and OTDM networks

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the CN.
