Table of Contents

Volume 5 Number 4

December 2015

Solubility and Dissolution in Terms of Generalized Approach to Electrolytic Systems Principles

A. M. Michałowska-Kaczmarczyk, T. Michałowski, M. Toporek, A. Pietrzyk.....47

Determination of N and O-Atoms, of $N_2(A)$ and $N_2(X, v > 13)$ Metastable Molecules and N_2^+ Ion Densities in the Afterglows of Ar- N_2 Microwave Discharges

A. Ricard, H. Zerrouki, J.-P. Sarrette.....59

Development of Amine Capillary Column Applied to the Analysis of Basic Compounds by Electrochromatography

S. Flor, J. M. Huala, V. Tripodi, S. Lucangioli.....66

General Relation Valid for Electrolytic Systems

A. M. Michałowska-Kaczmarczyk, T. Michałowski.....74

Journal of Analytical Sciences, Methods and Instrumentation

ISSN: 2164-2745 (Print), 2164-2753 (Online)

<http://www.scirp.org/journal/jasmi>

Journal of Analytical Sciences, Methods and Instrumentation (JASMI) is an international, specialized English-language journal devoted to publication of original contributions concerning all aspects of theory and practice of analytical sciences, measurement science, analytical methodology, experimental methods, experimental protocols, technical characterizations and instrumentation (sampling, analysis, electrochemistry, microscopy, spectroscopy, mechanical analysis, thermal analysis, separations, spectroscopy, chemical reactions and selectivity, imaging, surface analysis, and data processing among others).

It is an open-access, peer-reviewed journal describing scientific and technological advances in analytical sciences, experimental protocols, methods, and characterization techniques.

The journal publishes the highest quality original full articles, communications, notes, reviews, special issues and books.

Papers are acceptable provided they report important findings, novel insights or useful techniques within the scope of the journal. All manuscript must be prepared in English, and are subjected to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by prints in hard copy. It will be available through <http://www.scirp.org/journal/jasmi/>

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
