Special Issue on Sports and Health Science

Call for Papers

Sports medicine is a branch of medicine that deals with physical fitness and the treatment and prevention of injuries related to sports and exercise. Specializing in the treatment of athletes and other physically active individuals, sports and exercise medicine physicians have extensive education in musculoskeletal medicine. SEM doctors treat injuries such as muscle, ligament, tendon and bone problems, but may also treat chronic illnesses that can affect physical performance, such as asthma and diabetes. SEM doctors also advise on managing and preventing injuries.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Sports and Health Science. Potential topics include, but are not limited to:

- Exercise physiology
- Kinesiology health
- Chronic illnesses during exercise and sports
- Sports medicine and rehabilitation
- Sports and exercise nutrition
- Muscle and sports science
- Injuries and surgery
- Physical training

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Sports and Health Science” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>February 8th, 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>April 2019</td>
</tr>
</tbody>
</table>
