Special Issue on Clinical Pathology

Call for Papers

Clinical Pathology is a medical specialty that is concerned with the diagnosis of disease based on the laboratory analysis of bodily fluids, such as blood, urine, and tissues using the tools of chemistry, microbiology, hematology and molecular pathology. This specialty requires a medical residency and should not be confused with Biomedical science, which is not necessarily related to medicine. Tools of Clinical Pathology include Microscopes, analysers, strips, centrifugal machines and so on. As one of the most important research fields of human life, clinical pathology is of great attractions to researchers.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring clinical pathology. Potential topics include, but are not limited to:

- Clinical pathology
- Body fluids analysis
- Chemical pathology
- Clinical microbiology
- Immunopathology
- Anatomical pathology
- General pathology
- Veterinary pathology

Authors should read over the journal’s Authors’ Guidelines carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal at Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue - Clinical Pathology” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Manuscript Due</th>
<th>March 20th, 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>May 2014</td>
</tr>
</tbody>
</table>
