Special Issue on Stem Cell Research & Therapy

Call for Papers

Stem cells are biological cells that can differentiate into other types of cells and can divide to produce more of the same type of stem cells. They are found in multicellular organisms. In practice, stem cells are identified by whether they can regenerate tissue. Stem cell treatment is investigated in many diseases.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Stem Cell Research & Therapy. Potential topics include, but are not limited to:

- Stem cell therapy
- Stem cell transplantation
- Bone marrow transplant
- Stem cell biology
- Stem cell and cancer Research
- Stem cell technology and regeneration
- Stem cells function in diseases

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Stem Cell Research & Therapy” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>January 23rd, 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>March 2019</td>
</tr>
</tbody>
</table>
