Special Issue on Biomedical and Environmental Sciences

Call for Papers

Biomedical and environmental sciences are applied sciences concerning environmental factors related to disease and health.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Biomedical and Environmental Sciences. Potential topics include, but are not limited to:

- Infectious disease control and prevention
- Chronic diseases and environmental factors
- Epidemiology and environmental health
- Contaminated environment and diseases
- Dust, air quality and human health
- Health and hazards
- Environmental factors and obesity
- Smoking and environmental health
- Environment-related diseases and disorders
- Consumption behavior and health
- Physiological and environmental effects
- Environment and cancer research

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Biomedical and Environmental Sciences” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>May 7th, 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>July 2019</td>
</tr>
</tbody>
</table>
