Special Issue on

Ecotoxicology and Environmental Safety

Call for Papers

Ecotoxicology and environmental safety focuses on integrated mechanistic research related to short- and long-term pathways and interactions of substances and chemical mixtures in environmental systems and subsystems on their bioavailability, circulation, and assimilation in target organisms, as well as biological responses of these organisms, and damage mechanisms. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of ecotoxicology and environmental safety.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore ecotoxicology and environmental safety. In this special issue, potential topics include, but are not limited to:

- Effects of ecotoxicity on a community
- Ecotoxicity testing
- Methods for ecotoxicological evaluation of the environment
- Source of environmental toxicants
- Exposure to toxic chemicals
- Ways of prevention

Authors should read over the journal’s Authors’ Guidelines carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue - Ecotoxicology and Environmental Safety” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>March 25th, 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>May 2015</td>
</tr>
</tbody>
</table>
