**Special Issue on Ecotoxicology and Environmental Safety**

**Call for Papers**

The emergence of environmental pollution prompted traditional toxicology from studying the effect of toxicants on organisms extended to study the effects of toxicants on biological groups. Ecotoxicology research plays an important role in understanding the migration, transformation and destination of toxicants in the environment, determining and predicting ecotoxicity, establishing ecotoxicology thresholds and standards, and promoting the implementation of the safety assessment of chemical substances and other laws and regulations. Ecotoxicology is a technical support of the "sustainable development of environmental safety" strategy. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of ecotoxicology and environmental safety.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring ecotoxicology and environmental safety. Potential topics include, but are not limited to:

- Principles of ecotoxicology
- Source of environmental toxicants
- Ecotoxicity test
- Ecological behavior and toxicological effect
- Management of toxic pollutants
- Environmental analysis technology
- Harm of chemicals to the environment
- Ecological risk assessment

Authors should read over the journal’s [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s [Paper Submission System](#).

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Ecotoxicology and Environmental Safety” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>February 26th, 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>April 2019</td>
</tr>
</tbody>
</table>
