A stock market, also called equity market or share market, is the market in which shares are issued and traded, either through exchanges or over-the-counter markets. It is one of the most vital areas of a market economy because it gives companies access to capital and investors a slice of ownership in a company with the potential to realize gains based on its future performance.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring Stock Market. Potential topics include, but are not limited to:

- Common stock
- Stock indexes
- Behavior of the stock market
- Stock market crash
- Stock market prediction
- Short selling and margin buying
- Virtual stock exchange

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly specify the “Special Issue” under your manuscript title. The research field “Special Issue - Stock Market” should be selected during your submission.

Special Issue Timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>March 31st, 2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>May 2017</td>
</tr>
</tbody>
</table>
