Special Issue on Zoonotic Diseases

Call for Papers

Any disease or infection that is naturally transmissible from vertebrate animals to humans and vice-versa is classified as a zoonosis according to the PAHO publication “Zoonoses and communicable diseases common to man and animals”.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring zoonotic diseases. Potential topics include, but are not limited to:

- Vector borne
- Bacteria, parasites, viruses and disease
- Pathogenesis
- Immunology
- Detection
- Public health
- Epidemiology

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at Paper Submission System.

Please kindly specify the “Special Issue” under your manuscript title. The research field “Special Issue – Zoonotic Diseases” should be selected during your submission.

Special Issue timetable:
