Special Issue on Municipal and Urban Engineering

Call for Papers

Municipal and urban engineering generally belongs to the nation's infrastructure projects, is refers to the construction of various public infrastructure construction in the city, such as transport facilities, water supply, drainage, gas, urban flood control, environmental sanitation, lighting and so on. It deals with the larger scale of groups of buildings, streets and public spaces, whole neighborhoods and districts, and entire cities, with the goal of making urban areas functional, attractive, and sustainable. With the rapid development of the world economy and the acceleration of the urbanization process, municipal and urban engineering plays an important role in municipal construction. As the comprehensive development level and image of a city, municipal and urban engineering is closely related to people's daily life.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring municipal and urban engineering. Potential topics include, but are not limited to:

- Municipal planning and management
- Municipal road engineering
- Municipal water supply and drainage engineering
- Urban underground pipeline
- Smart city
- Building design
- Urban settings
- Landscape design and land use
- Urban sustainable development
- Public spaces and community establishment

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue — Municipal and Urban Engineering” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>March 27th, 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>May 2019</td>
</tr>
</tbody>
</table>
