Special Issue on Stem Cells

Call for Papers

Stem cells are the biological cells with self-renewing function, which can develop into specialized cells and can divide (through mitosis) to produce more stem cells under certain conditions. They may offer replacement cells to treat diseases and disabilities.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring Stem Cells. Potential topics include, but are not limited to:

- Embryonic stem cells
- Adult stem cells
- Stem cell line
- Induced pluripotent stem cell
- Hematopoietic stem cell
- Cord blood stem cell
- Stem cell treatments
- Totipotent stem cell
- Pluripotent stem cell
- Unipotent stem cell

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly specify the “Special Issue” under your manuscript title. The research field “Special Issue - Stem Cells” should be selected during your submission.

Special Issue Timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>September 16th, 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>January 2016</td>
</tr>
</tbody>
</table>
