

Special Issue on Clinical and Experimental Medicine

Call for Papers

“Investigation undertaken in humans, relating where appropriate to model systems, to identify mechanisms of pathophysiology or disease, or to demonstrate proof-of-concept evidence of the validity and importance of new discoveries or treatments.”

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **clinical and experimental medicine**. Potential topics include, but are not limited to:

- Clinical trials
- Evaluation in clinical practice
- Fundamental & clinical pharmacology
- Human psychopharmacology
- Laboratory and clinical medicine
- Nutrition in clinical practice
- Psychiatry in clinical practice
- Therapeutics
- Clinical risk management

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Clinical and Experimental Medicine**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	December 30th, 2016
Publication Date	February 2017
