Special Issue on Physical Therapy and Rehabilitation

Call for Papers

Physical therapy (PT), also known as physiotherapy, is one of the allied health professions that, by using evidence-based kinesiology, electrotherapy, shockwave modality, exercise prescription, joint mobilization and health education, treats conditions such as chronic or acute pain, soft tissue injuries, cartilage damage, arthritis, gait disorders and physical impairments typically of musculoskeletal, cardiopulmonary, neurological and endocrinological origins. Physical therapy is used to improve a patient's physical functions through physical examination, diagnosis, prognosis, physical intervention, rehabilitation and patient education.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Physical Therapy and Rehabilitation. Potential topics include, but are not limited to:

- Exercise therapy and kinesiology
- Chiropractic management
- Electroacupuncture
- Massage and acupuncture
- Pain and rehabilitation
- Exercise and rehabilitation
- Electrical stimulation
- Training on muscle strength
- Musculoskeletal rehabilitation
- Manual therapy

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Physical Therapy and Rehabilitation” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>March 19th, 2020</th>
