Special Issue on Financial Economics

Call for Papers

Financial economics is a branch of economics that analyzes the use and distribution of resources in markets in which decisions are made under uncertainty. Financial decisions must often take into account future events, whether those are related to individual stocks, portfolios or the market as a whole.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Financial Economics. Potential topics include, but are not limited to:

- Asset pricing and option pricing
- Price behavior
- Corporate finance
- Allocation and deployment of economic resources
- Portfolio performance and management
- Decision theory
- Financial models and econometrics
- Stochastic analysis
- Investment theory and analysis
- Certainty and uncertainty
- Stock market performance
- Financial markets analysis

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Financial Economics” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>April 27th, 2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>June 2020</td>
</tr>
</tbody>
</table>
