Spectral Analysis Review (SAR) is an open access journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various issues and developments in all aspects of Spectroscopy.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by Spectral Analysis Review (SAR) include but are not limited to the following fields:

- Absorption Spectroscopy
- Acoustic Spectroscopy
- Applications of Spectroscopy
- Astronomical Spectroscopy
- Atomic and Molecular Spectroscopy
- Electromagnetic Spectroscopy
- Electron Spectroscopy
- Emission Spectroscopy
- Fluorescence Spectroscopy
- High Resolution Spectroscopy
- History of Spectroscopy
- Hyperspectral Imaging
- Infrared Spectroscopy
- Laser Spectroscopy
- Nuclear Magnetic Resonance Spectroscopy
- Raman Spectroscopy
- Scattering Spectroscopy
- Spectral Measurement
- Spectrochemical Analysis
- Theories of Spectroscopy
- Ultraviolet Spectroscopy
- Visible Light Spectroscopy
- X-Diffraction Studies

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically from the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
