**Open Journal of Genetics (OJGen)** is an international journal dedicated to the latest advancement of Genetics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Genetics. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Behavioural genetics
- Classical genetics
- Conservation genetics
- Developmental genetics
- Ecological genetics
- Epigenetics
- Evolutionary genetics
- Genetic engineering
- Genetics of intelligence
- Genomics
- Human genetics
- Medical genetics
- Microbial genetics
- Molecular genetics
- Population genetics
- Psychiatric genetics
- Quantitative genetics
- Technical tips and improvement

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.
