Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The areas covered by *Advances in Aging Research (AAR)* include but are not limited to the following fields:

- Age-related disease
- Aging process, death and autophagy
- Anti-aging strategies
- Calorie restriction
- Cell growth and senescence
- Genetic mechanisms
- Gerontology
- Modulation of DNA, DNA damage and repair
- Pharmacologic intervention

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
