TABLE OF CONTENTS

Volume 4, Number 3, March 2013

An assessment of factors leading to the decline of <i>Beclardia macrostachya</i> (orchidaceae) population in Mauritius	
V. Bhoyroo, D. Puchooa, V. M. Sanmukhiya, E. Rababakonandrianina.....	317
Distinct profiles of systemic biomarkers of oxidative stress in chronic human pathologies: Cardiovascular, psychiatric, neurodegenerative, rheumatic, infectious, neoplastic and endocrinological diseases	
M. Brack, O. Brack, Y. Ménéz, D. B. Rousselot, G. Dreyfus, M. J. Chapman, A. Kontush.....	331
Effect of normobaric hypoxia on cardiorespiratory and metabolic risk markers in healthy subjects	
B. Shi, T. Watanabe, S. Shin, T. Yabumoto, T. Matsuoka.....	340
Use of radiation in strains of <i>Saccharomyces cerevisiae</i>: A new technique for industrial applications	
R. O. Andrette, J. D. T. Arruda-Neto, T. O. Basso, L. C. Basso, E. Cavalcante-Silva, M. C. Bittencourt-Oliveira, G. C. Genofre.....	346
Cytokines and endothelial adhesion molecules (sVCAM-1) in preeclampsia	
A. Trunov, O. Obukhova, O. Gorbenko, A. Shvayk, L. Trunova.....	352
Attenuation of experimentally induced diabetic neuropathy in association with reduced oxidative-nitrosative stress by chronic administration of <i>Momordica charantia</i>	
Z. A. Malik, N. Tabassum, P. L. Sharma.....	356
Effect of acute oral chlorogenic acid ingestion on the inhibition of blood glucose excursions following glucose tolerance testing	
S. Demura, T. Yamada, Y. Hirose, K. Takahashi.....	364
Effects of hypoxic training on physiological exercise intensity and recognition of exercise intensity in young men	
S. Shin, S. Demura, B. Shi, T. Watanabe, T. Yabumoto, T. Matsuoka.....	368
Spectral footprint of <i>Botrytis cinerea</i>, a novel way for fungal characterization	
M. Aboelghar, H. Abdel Wahab.....	374
Senescence process and oxidative stresses induce changes in plant genomic DNA quality	
S. Hatami-Gigloo, S. M. M. Mortazavian, M. Hatami-Gigloo, M. Ghorbani.....	383
The effects of an imperfect vaccine on cholera control	
J. A. Cui, Z. M. Wu, G. H. Song.....	388
HCS strategy targeting dysregulation of the VHL/HIF pathway for drug discovery	
B. Cautain, N. de Pedro, M. M. de Escalona, J. R. Tormo, O. Genilloud, F. Vicente.....	398

The figure on the front cover is from the article published in Advances in Bioscience and Biotechnology, 2013, Vol. 4, No. 3, pp. 398-405 by Bastien Cautain, *et al.*

Call for Papers

Advances in Bioscience and Biotechnology

ISSN: 2156-8456 (Print) ISSN: 2156-8502 (Online)

<http://www.scirp.org/journal/abb>

Advances in Bioscience and Biotechnology (ABB) is an international journal dedicated to the latest advancement of biosciences. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of biosciences. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy.

Subject Coverage

This journal invites original research and review papers that address the following issues in bioscience and biotechnology. Topics of interest include, but are not limited to:

- Aerobiology
- Anthropology
- Biochemical Genetics
- Biochemistry
- Bioinformatics
- Biological Engineering
- Biological Evolution
- Biomathematics
- Biophysics
- Biostatistics
- Botany
- Cytobiology
- Developmental Biology
- Ecology
- Entomology
- Enzyme Engineering
- Genetic Engineering
- Genetics
- Immunology
- Microbiology
- Molecular Biology
- Nano-Bio-Analysis
- Neurobiology
- Pathology
- Physiology
- Protein Engineering
- Radiation Biology
- Virology
- Zoology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **ABB**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. Authors are responsible for having their papers checked for style and grammar prior to submission to ABB. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
