Editor-in-Chief

Dr. Anderson Ho Cheung Shum

University of Hong Kong, Hong Kong, China

Editorial Board

Prof. Chang Soo Lee

Chungnam National University, South Korea

Dr. Jinkee Lee

Sungkyunkwan University, South Korea

Dr. Yoon Sung Nam

Korea Advanced Institute of Science and Technology, South Korea

Dr. To Ngai

Chinese University of Hong Kong, Hong Kong, China

Prof. André R. Studart

ETH Zurich, Switzerland

Dr. Jiandi Wan

Rochester Institute of Technology, USA

Prof. Weijia Wen

Hong Kong University of Science and Technology, Hong Kong, China

Prof. Ning Xu

University of Science and Technology of China, China

Table of Contents

Volume 4 Number 1

March 2015

Study on Modification of Polymer Properties by the Cold Drawing Process

W.-F. Lai.....1

Subject Coverage

Soft contains rapid communications, full-length original research, review articles and comments on soft condensed matter systems, which includes colloids, surfactants, emulsions, liquid crystals, polymers, aerosols, granular materials, biomolecules, electrolytes and other materials that can be easily deformed by thermal fluctuations at room temperature. It covers the synthesis, processing, modifications and applications of these soft materials in Physics, Chemistry, Biology, Materials and Engineering. The topics include, but are not limited to:

Colloids

Elastic Fiber

Filaments

Hyperelastic Material

Interfacial Phenomena

Liquid Crystals

Liquid Polymers

Membranes

Microemulsion

Microfluidics

Nanofluidics

Non-Newtonian Media

Rubber and Elastomer

Soft Biological Tissues

Soft Elastic Material

Soft Elastic Tissues

Soft Matter

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
