Table of Contents

Volume 6 Number 1

March 2016

Hydrogenation of Alkenes with NaBH₄, CH₃CO₂H, Pd/C in the Presence of O- and N-Benzyl Functions N. A. Soom, T. Thiemann.....	1
Synthesis of α-Naphthol and 2,4,7-Trimethyl-Quinolin-5-ol by Using Manganese (III) Acetate and Analysis of Its Antimicrobial Properties G. U. Akkuş.....	12
Synthesis and Photophysical Properties of Fluorene or Carbazole-Based Alternating Copolymers Containing Si and Ethynylene Units in the Main Chain N. Naga, N. Tagaya, H. Tomoda.....	20
Synthesis, Spectroscopy and X-Ray Characterization, of Novel Derivatives of Substituted 2-(Benzothiazol-2'-ylthio)acetohydrazide F. Al-Omran, A. A. El-Khair.....	31
Synthesis and Spectral Identification of Novel Stable Triazene: As Raw Material for the Synthesis Biocompatible Surfactants- Pyrazole-Isoxazole-Dihydropyrimidine-Tetrahydropyridine Derivatives M. A. M. A. Reheim, A. M. El-Sayed Tolba.....	44
Highly Fluorescent Conducting Polymer Hybrid Materials Based on Polyaniline-Polyethylene Glycol-Arsenic Sulphide V. K. Singh, A. Singh, V. K. Gupta, R. A. Singh.....	55
Synthesis, Reactions and Characterization of 1,1'-(1,4-Phenylenebis(3-amino-6-methyl-1H-pyrazolo [3,4-b]pyridine-4,5-diyl))bis(ethan-1-one) A. A. M. Elreedy, H. M. Alkubaisi, F. A. Attaby.....	65
Synthesis, Molecular Structure and Anti-Onchocercal Studies of 1-(Phthalazin-1(2H)-one) [(Pyridin-2-yl)ethylidene]hydrazone J. N. Yong, F. Majoumo-Mbe, M. Samje, E. N. Nfor.....	77

International Journal of Organic Chemistry (IJOc)

ISSN 2161-4687 (Print) ISSN 2161-4695 (Online)

<http://www.scirp.org/journal/ijoc>

International Journal of Organic Chemistry (IJOc) is an international, specialized, English-language journal devoted to publication of original contributions concerning all fields of organic chemistry. It is an open-access, peer-reviewed journal describing the synthetic approach and the design of new molecules for applications in medicinal chemistry, but also for the synthesis of precursors for new materials (solid or liquid) that have an interest in materials sciences and nanotechnology, homogeneous and heterogeneous catalysis.

Subject Coverage

Contributions that concerns with analytical characterization, advanced techniques and the studies of properties for new synthesized molecules will also be highlighted. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Fluorescent Molecules and Dyes
- Organo-Metallics
- Polymers
- Surfactants among Others
- Synthesis of Reagents

The journal publishes the highest quality original full articles, communications, notes, reviews, special issues and books, covering both the experimental and theoretical aspects of organic chemistry.

Notes for Intending Authors

Papers are acceptable provided they report important findings, novel insights or useful techniques within the scope of the journal. All manuscript must be prepared in English, and are subjected to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by prints in hard copy. It will be available through <http://www.scirp.org/journal/ijoc>.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
