

Table of Contents

Volume 5 Number 9

September 2017

Mathematical Modelling for a Multi-Product Inventory Routing Problem with Split Delivery

Y. L. Yeh, C. Y. Low.....1607

Immersed Interface Method for Fokker-Planck Equation with Discontinuous Drift

B. Y. Zhang, Y. M. Chen, S. H. Song.....1613

Application of the Queuing Theory in Characterizing and Optimizing the Passenger Flow at the Airport Security

M. J. Wang.....1620

Numerical and Experimental Study on Vibration and Noise of Embedded Rail System

F. Y. Yeh, X. T. Chang, Y. C. Sung.....1629

Liquefied Natural Gas Tanks for Suppressing Pitching Motions of FLNG Facility

W. S. Zhang, J. Cheng, Y. Q. Duan.....1638

Cauchy Problem of the Singularly Perturbed Sixth Order Boussinesq Type Equation

H. Li, C. M. Song, L. Chen.....1648

Forging Optimization and Microstructural Simulation of an Inconel 718 Alloy Used in Turbine Discs

S. H. M. Anijdan, M. Aghaie-Khafri, V. Joshaghani.....1658

Key Issues for Implementing Smart Polishing in Semiconductor Failure Analysis

J. Leo, H. Tan, Y. Z. Ma, S. M. Parab, Y. M. Huang, D. D. Wang, L. Zhu, J. Lam, Z. H. Mai.....1668

A Dynamic Programming Algorithm for the Riderssharing Problem Restricted with Unique Destination and Zero Detour on Trees

Y. M. Li, H. Q. Lu, Z. Q. Ye, X. Zhou.....1678

Numerical Simulation of Lateral Jet Interaction

J. Chen, Y. F. Liu, J. L. Bo.....1686

Friction Shear Stress on the Surface of Iron-Based Coating/HSS during Sliding Wear of Pin Disk

H. J. Wang, K. K. Gan, X. G. Zhou, S. S. Yan, L. F. Niu.....1694

The SMW Formula for Bounded Homogeneous Generalized Inverses with Applications

J. B. Cao.....1703

The Reasons Suggesting a Close Link between Thermodynamics and Relativity

J.-L. Tane.....1710

Exact Solutions to the Boussinesq-Burgers Equations

X. Z. Li, B. A. Li, J. L. Chen, M. L. Wang.....1720

On the Bifurcations of Dean Flow between Porous Horizontal Cylinders with a Radial Flow and a Radial Temperature Gradient

L. Shapakidze.....1725

The Study on the Differential and Integral Calculus in Pseudoeuclidean Space

G. Tarabrin.....1739

Effect of Heat Source/Sink on Free Convective Flow of a Polar Fluid between Vertical Concentric Annuli

A. K. Singh, A. K. Singh.....1750

Conceptual Design of Beam Tube of 300 KeV Electron Electrostatic Accelerator

S. I. Karanian, R. R. Mogaddam, E. Seifnouri, M. Amiri.....1763

On the Conservative Finite Difference Scheme for the Generalized Novikov Equation

W. X. Chen, Q. Q. Zhu, P. Yang.....1776

The “Non-Locality” of Entangled States Is Seeming Phenomenon

M. Guryev.....1791

Energy Decay for a Von Karman Equation of Memory Type with a Delay Term

S.-H. Park, J.-Y. Park, Y.-H. Kang.....1797

A Model of Optimal Development for an Economy with an Informal Sector

P. C. Bhattacharya.....1808

Addendum to Paper Entitled “Do Prime Numbers Obey a Three Dimensional Double Helix?”

P. Bissonnet.....1825

The Qualitative and Quantitative Methods of Kovalevskys Case

F. M. F. El-Sabaa, A. A. Mohamed, S. K. Zakria.....1837

National Innovation-Oriented City Evaluation Study Based on Two-Stage DEA Model

X. B. Wei, Y. Z. Duan, M. Wang, J. X. Zhou, X. B. Peng.....1855

Mathematical Analysis on Pulsatile Flow through a Catheterized Stenosed Artery

S. U. Siddiqui, C. Awasthi.....1874

**Intersecting Line of Conical Surface and Smoothly Blending
of Two Tubes Whose Axes Are Non-Coplanar**

G. Z. Bai, Z. Wu, X. Lin.....1887

Automatic Alzheimer's Disease Recognition from MRI Data Using Deep Learning Method

S. H. Luo, X. C. Li, J. M. Li.....1892

Bifurcation of Parameter-Space and Chaos in Mira 2 Map

T. Jiang, Z. Y. Yang.....1899

**Bifurcations and Chaos in the Duffing Equation with One
Degenerate Saddle Point and Single External Forcing**

Z. Y. Yang, T. Jiang.....1908

Non-Scattering of the Solution of the Nonlinear Schrödinger Equation on the Torus

X. Cheng, Q. Li.....1917
