## 1. Correction

After reading the above mentioned article of [1], we identified a mistake considering the results of the paragraph "3.6. Nonlinear Parameters AP" and the related Table 5 (both on p. 512). Unfortunately, published Table 5 is a duplicate of Table 4, and therefore it is not possible for the reader to comprehend any underlying interrelations. To correct this mistake, we would like to offer the corrected table (Table 5) as follows.

Table 5. Factor loadings for nonlinear parameters AP (rotated, >0.5 in bold letters). Components and explained variances.
