World Journal of Vaccines (WJV) is an international journal dedicated to the latest advancement of vaccines. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of vaccine related problems.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Adjuvants
- Autoimmune Disease
- Bacteriology
- Cancer Immunotherapy
- Epidemiology
- Immunology
- Immunomodulators
- Immunopathology
- Immunopharmacology
- Parasitology
- Virology

We are also interested in: 1) Short Reports—2 to 5 pages where the paper is intended to present either an original idea with theoretical treatment or preliminary data and results; 2) Book Reviews—Comments and critiques of recently published books in the vaccine field; 3) Review articles in areas of potential interest to the readership of WJV.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
