

**TABLE OF CONTENTS****Volume 1, Number 3, October 2011****Magnetic analyses of isosceles tricobalt(II) complexes containing two types of octahedral high-spin cobalt(II) ions**

H. Sakiyama, H. Adams, D. E. Fenton, L. R. Cummings, P. E. McHugh, H. Okawa.....33

**Synthesis, structural and spectroscopic characterization of the bis(nitrito-*N*) octaethylporphyrin cobalt(III) complex**

B. B. Ali, M. S. Belkhiria, M. Giorgi, H. Nasri.....39

**Crystal structure, thermal analysis and IR spectroscopic investigation of bis (N-methyl anilinium) sulfate**

T. Guerfel, A. Jouini.....47

---

The figure on the front cover is from the article published in the Open Journal of Inorganic Chemistry, 2011, Vol. 1, No. 3, pp. 39-46 by Bader Belhaj Ali, *et al.*
