

Table of Contents

Volume 7 Number 4

April 2019

Classical Quantum Field Theory Based on the Hypothesis of the Absolute Reference System

K. Patrinos.....747

On Kirchhoff Problems Involving Critical Exponent and Critical Growth

M. El Mokhtar O. El Mokhtar, Z. I. Almuhiameed.....781

Analytical and Numerical Investigations of Probabilistic Monochromatic Problem

S. Schmuck, J. Svensson.....793

Calculation of the Centrally Symmetric and Vortex Forces Acting on Momentum in Distortion Tensor Field: Explanation of High-Temperature Plasma and Vortex Motions

A. Y. Braginsky.....809

Lateral Shear Layer and Its Velocity Distribution of Flow in Rectangular Open Channels

X. Tang.....829

The Future of Snapchat: A Mathematical Model

S. M. Al-Tuwairqi, B. K. Aloosh, R. A. Bagies.....841

Travelling Waves: Interplay of Low to High Reynolds Number and Tan-Cot Function Method to Solve Burger's Equations

Md. Kamrujjaman, A. Ahmed, J. Alam.....861

Structure of Essential Spectrum and Discrete Spectrum of the Energy Operator of Three-Magnon Systems in the Isotropic Ferromagnetic Non-Heisenberg Model with Spin One and Nearest-Neighbor Interactions

S. M. Tashpulatov.....874

Duplicate Form of the Generalized Carlitz Inversions and Summation Formulae

Q. Y. Dong.....900

Application of the Improved Kudryashov Method to Solve the Fractional Nonlinear Partial Differential Equations

Md. A. Salam, U. Habiba.....912

Approximate Solution of Lane-Emden Type Equations Using Variation of Parameters Method with an Auxiliary Parameter

A. S. Khalifa, H. N. Hassan.....921

Effect of Translatory Motion on Dynamics Heat and Mass Transfer of Vapor Bubble Radially Oscillating in a Liquid

N. S. Khabeev.....942

Dynamical Analysis of a *Schistosomiasis japonicum* Model with Time Delay

F. M. Zhang, S. J. Gao, H. H. Cao, Y. Q. Luo.....948

MHD Effects on Mixed Convective Nanofluid Flow with Viscous Dissipation in Surrounding Porous Medium

Md. N. Uddin, Md. A. Alim, Md. M. Rahman.....968

Elementary Wave Interactions for the Simplified Combustion Model in Magnetogasdynamics

Y. J. Liu, W. H. Sun.....983

Oscillatory and Asymptotic Behaviour of Solutions of Two Nonlinear Dimensional Difference Systems

G. Saraswathi, P. Sumathi.....1001
