Qing-Ding Wei

Peking University, China

TABLE OF CONTENTS

Volume 1 Number 1

April 2013

Non-Axisymmetric Mass Transfer Phenomenon behind an Orifice in a Curved Swirling Flow T. Takano, T. Yamagata, Y. Sato, N. Fujisawa.....	1
An Experimental Investigation on the Quasi-Static Flotation Transport of a Glass Substrate Using Vortex Bearing Elements X. Li, Y. Nakamura, M. Horie, T. Kagawa.....	6
Wake-Induced Bypass Transition over a Flat Plate under Favorable and Adverse Pressure Gradients E. Koyabu, T. Tsukiji.....	13
Temperature Measurement of Air Flow Using Fluorescent Mists Combined with Two-Color LIF S. Funatani, K. Toriyama, T. Takeda.....	20
Experimental Investigation of Operating Room Air Distribution in a Full-Scale Laboratory Chamber Using Particle Image Velocimetry and Flow Visualization J. McNeill, J. Hertzberg, Z. Q. Zhai.....	24

Journal of Flow Control, Measurement & Visualization (JFCMV)

Call for Papers

Journal of Flow Control, Measurement & Visualization

ISSN 2329-3322 (Print) ISSN 2329-3330 (Online)
<http://www.scirp.org/journal/jfcmv>

This Journal is aimed at publishing original articles with visual images which will demonstrate facts to assist in the understanding of the presented information. Each article submitted should not have been published before nor simultaneously submitted for publication elsewhere.

Subject Coverage

JFCMV is a quarterly online international journal. This journal will cover a wide range of experimental and computational articles in the fields of flow control, measurement and visualization. The fields include topics related to acoustics, aeronautics, biomedical and life sciences, combustion, fluid mechanics, heat transfer, hydraulics, micro and nano fluids, multiphase flow, ocean and wind engineering, optical measurement, safety management technology, scientific arts, sports science, turbo machinery, turbulence, visual information, and others.

Three types of articles will be considered for publication in the Journal:

Original Paper: Original publications on the subjects of flow control, measurement and visualization are encouraged to submit if they contain a sufficient amount of visual images.

Review Paper: Reviews on the topics in the fields of this Journal are encouraged to submit, if they contain a sufficient amount of visual images.

Short Paper: Rapid publications of original research in a short form are encouraged to submit, if they contain a sufficient amount of visual images.

Since the Journal focuses on publishing visual experimental and computational data, visual images are important factors for publication consideration.
