## TABLE OF CONTENTS

Volume 3 Number 4A

October 2013

### **Cross-Linked Alginate Film Pore Size Determination Using Atomic Force Microscopy and Validation Using Diffusivity Determinations**

C. Simpliciano, L. Clark, B. Asi, N. Chu, M. Mercado, S. Diaz, M. Goedert, M. Mobed-Miremadi.....1

### **AFM Investigation of the Organization of Actin Bundles Formed by Actin-Binding Proteins**

J. L. Gilmore, M. Kumeta, K. Takeyasu.....13

### **Characterization of Pectin Nanocoatings at Polystyrene and Titanium Surfaces**

K. Gurzawska, K. Dirscherl, Y. Yihua, I. Byg, B. Jørgensen, R. Svava, M. W. Nielsen, N. R. Jørgensen, K. Gotfredsen.....20

### **The Use of Light Diffracted from Grating Etched onto the Backside Surface of an Atomic Force Microscope Cantilever Increases the Force Sensitivity**

S. K. Sekatskii, M. Mensi, A. G. Mikhaylov, G. Dietler.....29

### **Interaction between Peptide Pheromone or Its Truncated Derivatives and Pheromone Receptor of the Fission Yeast *Schizosaccharomyces pombe* Examined by a Force Spectroscopy Study and a GFP Reporter Assay**

S. Hidaka, O. Nikaïdo, S. Kiyosaki, A. Ikai, T. Osada.....36

## Journal of Surface Engineered Materials and Advanced Technology (JSEMAT)

ISSN Print: 2161-4881    ISSN Online: 2161-489X  
<http://www.scirp.org/journal/jsemat>

**Journal of Surface Engineered Materials and Advanced Technology (JSEMAT)** is an international, specialized, English-language journal devoted to publication of original contributions concerning surface sciences, surface properties, techniques of characterization and generated applications.

It is an open-access, peer-reviewed journal describing scientific and technological advances that cover the basic sciences, engineering aspects and applied technology of surface chemistry, surface materials sciences and engineering studies for applications in nanotechnology, biomaterials, optics, environment, architectural restoration including all kind of materials surfaces.

### Subject Coverage

The journal publishes the highest quality original full articles, communications, notes, reviews, special issues and books, covering both the experimental and theoretical aspects including but not limited to:

- |  |   |
|--|---|
| Adsorption Process and Principles                | Surface Corrosion                                     |
| Advances in Adhesion Sciences                    | Surface Crystallization                               |
| Interface Sciences and Applications              | Surface Hydration at Solid/Liquid Interface           |
| Intermolecular Interactions                      | Surface Interactions at Bio-Interfaces                |
| Kinetics and Thermodynamics at Surfaces          | Surface Interactions at the Nanoscale                 |
| Modeling Theory of Surface Chemistry             | Surface Microscopy (SEM, AFM, High Speed AFM, STM...) |
| Single Molecule Force Spectroscopy               | Surface Molecules Self-Assembly                       |
| Surface Biocompatibility                         | Surface Nanopatterning                                |
| Surface Characterization and Advanced Techniques |   |

Papers are acceptable provided they report important findings, novel insights or useful techniques within the scope of the journal. All manuscript must be prepared in English, and are subjected to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by prints in hard copy. It will be available through <http://www.scirp.org/journal/jsemat/>.

### Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
