

TABLE OF CONTENTS

Volume 5 Number 1

January 2014

Engineered Hydrophobin for Biomimetic Mineralization of Functional Calcium Carbonate

Microparticles

H. Heinonen, P. Laaksonen, M. B. Linder, H.-P. Hentze.....1

Propyl-Sulfonic Acid Functionalized Nanoparticles as Catalyst for Pretreatment of Corn Stover

L. Peña, F. Xu, K. L. Hohn, J. Li, D. Wang.....8

A Transparent Polyimide Film as a Biological Cell Culture Sheet with Microstructures

H. Maenosono, H. Saito, Y. Nishioka.....17

Poly(Vinyl Alcohol)/Collagen/Hydroxyapatite Nanoparticles Hybrid System Containing Yttrium-90 as a Potential Agent to Treat Osteosarcoma

M. F. Cipreste, E. M. B. Sousa.....24

Polymeric Nanohydrogels of Poly(N-Isopropylacrylamide) Combined with Others Functionalized Monomers: Synthesis and Characterization

L. A. Luztonó, Y. C. Donates, L. G. G. Ramirez, A. G. Palomo, D. Z. Silva, I. Katime.....31

Single Nucleotide Polymorphisms and Haplotypes in Vascular Endothelial Growth Factor Gene and Residual Ridge Resorption of Mandible in Korean Population

J.-H. Song, J.-H. Lee.....39

On the Hyper Thermal Therapy of Tumor Tissues by Direct Laser Heating and Gold Nano Particles

B. Fasla, R. Benmouna, M. Benmouna.....44

The figure on the front cover is from the article published in *Journal of Biomaterials and Nanobiotechnology*, 2014, Vol. 5, No. 1, pp. 8-16 by Leidy Peña, *et al.*
