Subject Coverage

JIS aims to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of information security. All manuscripts submitted to JIS must be previously unpublished and may not be considered for publication elsewhere at any time during JIS's review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. The topics to be covered by Journal of Information Security include, but are not limited to:

Access Control and Anonymity	Grid Security
Anti-Virus and Anti-Worms	Information Hiding and Watermarking
Authentication and Authorization	Intellectual Property Protection
Biometric Security	Intrusion Detection
Data and System Integrity	Key Management and Key Recovery
Database Security	Language-Based Security
Distributed Systems Security	Network Security
Electronic Commerce Security	Operating System Security
Fraud Control	Security Models

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **JIS**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
