

Table of Contents

Volume 9 Number 4B

April 2017

Study on the Effect of Multi-Type Current Transformers Hybrid Operation on Differential Protection of the Bus Based on Dynamic Simulation

W. B. Liao, Z. X. Zhou, R. R. Zhan, Y. J. Li, Z. G. Chen.....1

Analysis of Risk Management for the Coal Mine Operations

Y. Q. Qi, T. Xu, J. S. Huang.....12

Fault Identification of Power Grid Based on Wide-Area Differential Current and K-Means Clustering

H. Wu, Q. Z. Li.....19

The Comprehensive Evaluation Algorithm with Fault Location in HVDC Transmission Line

Z. Q. Sun, Q. Y. Huang, C. J. Hu, X. N. Kang, H. Wang, X. Z. Zhang, C. Zhao, Y. L. Ma.....30

An Improved FMECA Method for Wind Turbines Health Management

M. Du, J. Yi, J. B. Guo, L. Cheng, S. C. Ma, Q. He.....36

Data Processing of Fault Recorder in Power System

Y. Qin, Y. Bai, M. H. Wen.....46

Analysis of Non-Sinusoidal Steady Electric Field of ± 500 kV Converter Transformer

G. Liu, C. Chi, Y. J. Jin, Y. Q. Ma, L. P. Sun, L. Li, Y. L. Sun.....53

A Flying Spots Detection and Recovery Scheme Based on Hybrid-Waveform Recognition Method

Q. Y. Huang, C. J. Hu, Z. Q. Sun, X. N. Kang, X. Z. Zhang, H. Wang, C. Zhao, Y. L. Ma.....63

Design and Implementation of a Three-Phase Active T-Type NPC Inverter for Low-Voltage Microgrids

R. Chen, Y.-Y. Tzou.....70

Optimal Economic Life Interval Evaluation Method of Transformers

Z. Mei, B. Ruan, Y. Li, J. Huang, C. Long.....78

A Compound Relay Protection Operation Criterion Based on Kirchhoff's Current Law and Abnormal Data Detecting Algorithm

X. Z. Zhang, X. N. Kang, H. Wang, Q. Y. Huang, Y. L. Ma.....88

The Influence of Abnormal Data on Relay Protection

X. Z. Zhang, X. N. Kang, Y. L. Ma, H. Wang, Q. Y. Huang.....95

Consensus-Based Distributed Control with Communication Time Delays for Virtual Synchronous Generators in Isolate Microgrid

L. J. Chen, Y. Y. Wang, T. W. Zheng, Z. Q. Sun.....102

Economic Model Predictive Control for Hot Water Based Heating Systems in Smart Buildings

M. A. A. Awadelrahman, Y. Zong, H. W. Li, C. Agert.....112

Comparison of ARIMA and ANN Models Used in Electricity Price Forecasting for Power Market

G. Gao, K. Lo, F. L. Fan.....120

Research on Multi-Scale Modeling of Grid-Connected Distributed Photovoltaic Power Generation

C. Lv, W. X. Sheng, K. Y. Liu, X. Z. Dong.....127

Drying Kinetics of Paper Mill Sludge

W. Yu, X. Liu, H. S. Su, Y. J. Zhang.....141

Permanent Fault Identification Method for Single-Phase Adaptive Reclosure of UHVAC Transmission Line

D. Q. Du, C. M. Li, J. W. Zhang.....149

Research on Load Characteristic of Electrothermal Film Heating Community

L. Yang, T. Z. Liu, X. G. Wang, J. He, X. B. Song.....155

Research on Reduction of Solar Power Curtailment with Grid Connected Energy Storage System Based on Time-Series Production Simulation

S. Ma, Y. P. Xu, X. F. Li, Y. F. Wang, N. Zhang, Y. R. Xu.....162

A Modified Back/Forward Sweep Method Based on the Electricity Consumption Data

Y. L. Huang, Y. Li, F. Chen, X. Zheng, J. Tang.....176

Low-Voltage Analysis of Distribution Network Software Design and Application

M. Q. Du, Y. Li, C. F. Liu, T. J. Liang.....183

Discuss of Key Issue for Automatic BATS Control in Regional Power Grid

K. Y. Pan, Y. Y. Sun, Z. Y. Gao.....189

Forecasting the Impact of CCGT-CCS on the UK's Electricity Market by LCOE

T. X. Luan, K. L. Lo, J. F. Lu.....198

Labyrinth Seal Design Optimization Based on Quadratic Regression Orthogonal Experiment

L. H. Cao, H. Y. Si, P. Li, Y. Li.....204

Online Loss Parameters Diagnosis Device Development of Power Cable Insulation

J. Chen, C. Y. Li, L. B. Hu, J. Y. Cao, X. Tan.....216

Calculating Size of Pump-Hydro Combined Energy Storage System in Wind-Diesel Systems Based on PHCES Dynamic Model

S. Wang, K. L. Lo, J. F. Lu.....224

Large Power Transformer Fault Diagnosis and Prognostic Based on DBNC and D-S Evidence Theory

G. Li, C. H. Yu, H. Fan, S. G. Gao, Y. Song, Y. P. Liu.....232

A Transmission Congestion Cost Allocation Method in Bilateral Trading Electricity Market

J. W. Zhao, J. F. Lu, K. L. Lo.....240

Improving Efficiency by Thermodynamic and Gravitational Cycle

Z. Quan.....250

Identification of Critical Lines in Power System Based on Optimal Load Shedding

M. S. Liu, L. J. Zhao, L. Huang, X. W. Zhang, C. H. Deng, Z. J. Long.....261

A Summary Study of Wind Turbine with Related Control

B. H. Zhou, J. F. Lu, K. L. Lo.....270

An Improved Method of the Energy Loss Calculation Considering the Volatility of Wind Power Generation

B. Ruan, T. T. Hou, Y. Li, Z. Mei, J. Huang.....281

Day-Ahead Probabilistic Load Flow Analysis Considering Wind Power Forecast Error Correlation

Q. Ding, C. C. Zhang, J. Y. Zhou, S. Dai, D. Xu, Z. Q. Luo, C. W. Zhai.....292

A Case Study to Determine Optimal Capacity of a Stand-Alone Wind/PV/Battery System

Z. L. Shao, K. L. Lo.....300

Optimal Energy Management for Virtual Power Plant with Renewable Generation

Y. C. Kang, K. L. Lo, I. Kockar.....308

A Steady State Voltage Stability Analysis of Wind Power Centralized System

S. Yang, W. S. Wang, C. Liu, Y. H. Huang, C. Li, J. Wang.....317

Research on the Application of Energy Internet Big Data in Integrated Energy Market

W. Y. Zhou.....328

Comprehensive Evaluation of Service Level of Transmission Equipment Maintenance Plan

J. L. Zhang, P. J. Li, Z. Cai, D. Xu.....336

A Hybrid Simulation Test Platform for Verifying the Protection Settings of SPS

J. J. Li, L. J. Qian.....346

Wind Power System Risk Assessment Based on Fuzzy Clustering and Copula Function Modeling

M. S. Liu, L. J. Zhao, L. Huang, W. H. Han, C. H. Deng, Z. J. Long.....352

The Security Correction of Large Consumers Long-Term Direct Power Trading Based on DC Power Transfer Distribution Factor

O. Y. Xu, Z. G. Wang, B. F. Lv, J. G. Zhang, J. G. Yao, B. Wang.....365

Fast Calculation Method of Energy Flow for Combined Electro-Thermal System and Its Application

S. X. Liu, S. Dai, Q. Ding, L. X. Hu, Q. X. Wang.....376

Residential Electricity Consumption Behavior Mining Based on System Cluster and Grey Relational Degree

M. J. Xu, Y. H. Wang.....390

Analysis on the Mode and Competitive Strategy of Electricity Sales in the Background of Electric Power System Reform

W. Y. Zhou.....401

Application of Mobile Intelligent Inspection System in Substation Equipment Management

D. L. Long.....408

Active Power Allocation of Virtual Synchronous Generator Using Particle Swarm Optimization Approach

F. S. Rahman, T. Kerdphol, M. Watanabe, Y. Mitani.....414

A New Coordinated Fuzzy-PID Controller for Power System Considering Electric Vehicles

G. Magdy, G. Shabib, A. A. Elbaset, T. Kerdphol, Y. Qudaih, Y. Mitani.....425

Research on Seamless Switching Control Strategy Based on Virtual Synchronous Generator

W. Kang, J. B. Wan, L. X. Zhang, Q. L. Zhang.....436

A Practical Electric Arc Furnace Model for Computer Simulation

L. X. Zhang, W. Kang, X. P. Zhang.....445

Optimization of Minimum Power Output for Combined Heat and Power Units Considering Peak Load Regulation Ability

C. Liu, D. Y. Men, D. Xu, Q. Ding, G. D. Huang, S. Dai, J. Y. Zhou.....452

Investigation into PCB Routing Loss for Coupled Inductor Based VR (Voltage Regulator) Design in Server Computing System

X. G. Liang, J. S. Zhu, Y. H. Ye, Y.-L. Li.....464

Optimal Replacement Time of Electrical Components Based on Constant-Interval Replacement Model: Equipment Inspection Method and Weibull Analysis

O. Z. Lin, H. Miyauchi.....475

Study on Contact Explosion Performance of Nuclear Containment

Q. Xu, X. Y. Cao, J. Y. Chen, J. Li, Y. Cao.....486

Design of Multi-Sensors Cooperation Control System for Intelligent Building

Q.-J. He, L. Ye.....495

Practical Dynamic Security Region Based on Phase Trajectory

Y. Gao, J. T. Chang, C. Qin, Y. Zeng, Y. Y. Liu, S. W. Li.....503

The Visualization Analysis of Research Hotspot and Frontier Technology of the Smart Power Distribution and Utilization Based on the Cite Space

T.-Y. Xu, H.-N. Qu, S.-S. Zhao, M.-X. Zhang, X. Yang, X.-Y. Huang.....515

Research on the Model of Long Term Generation Planning in Power Market Reform

B. Han, X.-L. Li, J.-H. Yan, H. Cui, Z.-Q. Luo.....525

SMS Notifying Design in Intra-Day Scheduling Security Check System

C.-H. Yan, L. C. Sha, S. Dai, H.-D. Zhao.....535

Research on Cyber-Physical Modeling for Smart Distribution Grid

X. H. Guo, S. Y. Guo, G. Li, Y. Song.....544

Transient Stability Study of Power System with Large-Scale Wind Farm Integration

R. Lin, R. Y. Liu.....552

Startup Speed with Dead Band in Wind Farms with Low-Medium Wind Speed Profile—Case Study of Hong Kong

Z. L. Yin, B. Bai, J. N. Liu, S. Su.....562

Analysis and Research on Low-Cost and Non-Intrusive Power Metering Chip

L.-P. Gao, X.-L. Yu, L. Huang, T.-R. Gong.....573

The Design of VLC-PLC System for Substation Inspection

D.-D. Sun, T.-R. Gong, R. Liu, J. Song, G.-H. Wang.....581

Synergetic Dispatch of Power System with Integration of Large-Scale Renewable Energy

S. Yang, Z. F. Jiang, S. Li, W. B. Li, G. J. Liu, X. Y. Cao, N. Wang, L. N. Zhang.....589

Research on Total Electric Field for DC Lines Converted from Double-Circuit AC Lines

X. Q. Ma, J. Y. Lu, K. He, W. S. Gao.....598

Unit Commitment under the Environment of Wind Power and Large-Scale Bilateral Transactions

F. Liu, Y. Pan, J. F. Yang, Z. Q. Luo, L. H. Liu.....611

Study on Short Circuit Current Calculation of Power System with UHVDC and New Energy Source

Z. H. Li, H. Yan, Y. T. Song, J. C. Guo.....625

Measurement and Simulation of Induced Voltage and Current on 110 KV Crossing Transmission Lines under UHV AC Transmission Lines

W. W. Pan, S. C. Miu, G. K. Yu, T. Wu, B. Zhang.....635

The Simulation of Surface Charge Accumulation on PMMA with Different Surface Roughness in Vacuum

J. Y. Yan, J. Ren, Q. Xie, H. F. Lin, Z. L. Hu, H. J. Ran, W. T. Hu, S. Li.....644

Transformer's Condition Assessment Method Based on Combination of Cloud Matter Element and Principal Component Analysis

Q. L. Hong, J. T. Zhang, Q. Xie, S. D. Liang, Y. Q. Xu, S. Li, W. T. Hu.....659

The Research of Connection between Degree of Polymerization and Frequency Domain Dielectric Spectroscopy Characteristics during Oil-Paper Insulation Aging

D. Y. Jiang, G. N. Wu, X. Yang, Q. K. Hao.....667

A Method of Auxiliary Planning for Intelligent Substation Access System Based on Security Region

G. Yi, S. T. Zhang, C. Qin, Y. Zeng, Y. Yang, Y. Y. Liu, S. W. Li.....675

Practical Equivalent Method of Power Network Based on PSASP Short-Circuit Calculation Program

H. N. Qu, M. N. Li, X. Yang, P. F. Zhang.....683

A Summary of the Main Contents and Existing Problems in the Study of Multi-Energy Coupling in Energy Internet

L. H. Li, Y. Li, X. Yang, H. N. Qu, P. F. Zhang.....693

A Novel Method of Auxiliary Power Supply Used in Wide-Range High Voltage Input DC-DC Converter

J. Zhang, L. J. Li, C. C. Liu.....703

Predicting of Power Quality Steady State Index Based on Chaotic Theory Using Least Squares Support Vector Machine

A. Q. Pan, J. Zhou, P. Zhang, S. F. Lin, J. K. Tang.....713

Research on Power Quality Evaluation Based on Radar Chart Method and Fuzzy Membership Degree

A. Q. Pan, J. Zhou, P. Zhang, R. H. Liu, Y. C. Wang.....725

DC Emergency Power Control Strategy for AC/DC Multi-Channel Interconnected System

Y. C. Wang, D. J. Shao, Z. Q. Zhang, Y. P. Xu, X. J. Pan, H. S. Sun.....735

A Transformer Replacement Decision Method Based on Probability Assessment of Failure Rate

G. Liang, S. W. Li, Y. Qi, J. Cao, Y. Hao, W. F. Chen.....748

Research on DC Fault of Multi-Terminal Direct Current System

S. Y. Fan, J. Liu, E. M. Bian, H. T. Xu, C. L. Kang.....756
