Call for Papers

World Journal of Condensed Matter Physics (wjcmp)

ISSN 2160-6919 (print) ISSN 2160-6927 (online)

<http://www.scirp.org/journal/wjcmp/>

World Journal of Condensed Matter Physics (WJCM) covers all aspects of condensed matter physics including soft condensed matter and nanostructures. Papers may report experimental, theoretical and simulation studies. Note that papers must contain fundamental condensed matter physics content. Reporting methods of materials preparation or production of novel condensed matter content will not be accepted.

Editor-in-Chief

Dr. Ravindran Ponniah

University of Oslo, Norway

All the manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copies. The journal publishes original papers including but not limited to the following fields:

Correlated Electrons
Dielectrics and Ferroelectrics
Electronic Structure
Liquids, Soft Matter and Biological Physics
Magnetism and Magnetic Materials
Nanostructures and Nanoelectronics
Semiconductors
Solid Structure and Lattice Dynamics
Superconductors and Metals
Surface, Interface and Atomic-Scale Science

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future consideration.
