Advances in Aerospace Science and Technology (AAST) is an open access journal. The goal of this journal is to provide a platform for researchers and practitioners all over the world to promote, share, and discuss various new issues and developments in all areas of Aerospace Science and Technology.

All manuscripts must be prepared in English and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes papers including but not limited to topics as listed below:

Aeronautics: Aircraft, Rotorcraft, Airship, UAS, Gliders, Airframe, Engine, Systems, Avionics, Airport, Airline, MRO, ATM, Society, History, Law, Environment.

Astronautics: Spacecraft, Satellites, Structures, Propulsion, Astrionics, Photovoltaics, Operation, Debris, Philosophy.

Aerospace Sciences: Aircraft Design, Spacecraft Design, MDO, Materials, Aeroelasticity, Manufacturing, Thermodynamics, Fluid Dynamics, CFD, Acoustics, Flight Mechanics. Performance, Stability and Controls, Navigation, Astrodynamics, Simulation, Testing, Sensing, Transmission, Automation, Software Engineering, Air Conditioning, Ergonomics, Hydraulics, Pneumatics, Kinematics, Sanitation, Systems Engineering, Management, Economics, Security, Safety, Reliability, Airworthiness, Documentation.

Perspective: Operator, Research, Teaching, Passenger.

We are interested in:

- Original Research Papers.
- Comments where an author can present an idea with theoretical background but has not yet completed full research needed for an original paper, likewise a useful method, a small finding or discovery.
- Reviews in all aspects of Aerospace Science and Technology.
- Symposia or workshop papers published as supplements.
- Book reviews with comments and critiques.
