

## Special Issue on Breast Health

### Call for Papers

Women's breasts come in many shapes and sizes. There is no perfect shape or size for breasts. Normal breasts can be large or small, smooth or lumpy, and light or dark. Most women experience breast changes at some time. Many factors affect the breast health, including age, heredity, weight, exercise, nutrition, stress, and chronic illnesses.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Breast Health**. Potential topics include, but are not limited to:

- Breast cancer awareness and prevention
- Breast self-examination techniques
- Breastfeeding and lactation support
- Breast pain and lump evaluation
- Breast imaging and screening methods
- Risk factors for breast disease
- Surgical options for breast conditions
- Hormonal changes and breast health
- Nutrition and breast Health
- Mental health and breast cancer survivorship

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Breast Health**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 16th, 2024
Publication Date	October 2024
