Prof. Tijian Wang
Nanjing University, China

Dr. Jianjun Xu
George Mason University, USA

Prof. Fangqun Yu
State University of New York at Albany, USA

Prof. Qiang Zhang
Sun Yat-sen University, China
# Table of Contents

**Volume 4  Number 4  October 2014**

**Trend Analysis of Drought in the Guinea and Sudano-Sahelian Climatic Zones of Northern Nigeria (1907-2006)**

T. O. Omonijo, E. C. Okogbue  ................................................................. 483

**A Quantistic Interpretation of the Relationship between the Earth-Core and the Atmosphere**

S. Manzetti  ........................................................................................................ 508

**Snow Cover Area Estimation Using Radar and Optical Satellite Information**

A. P. Salcedo, M. G. Caglioni  ........................................................................ 514

**Spatial-Temporal Variations in January Temperature in Pakistan and their Possible Links with SLP and 500-hPa levels over the Period of 1950-2000: A Geographical Approach**

I. Ahmad, R. Ambreen, S. Sultan, Z. B. Sun, W. T. Deng  ................................. 524

**Study of Weak Intensity Cyclones over Bay of Bengal Using WRF Model**

R. D. Kanase, P. S. Salvekar  ........................................................................... 534

**Detection of changes on temperature and precipitation features in Istanbul (Turkey)**

H. Turoğlu  ........................................................................................................ 549

**Temporal Variation of the Concentration of Carbon Monoxide in the Center West of Brazil**

A. de Souza, F. Aristones, G. B. M. Silva, W. A. Fernandes, C. Braga  ............... 563

**Trends in Vegetation Response to Drought in Sudano-Sahelian Part of Northern Nigeria**

B. B. Fabeku, E. C. Okogbue  ........................................................................... 569

**Assessment of the 2006-2012 Climatological Fields and Mesoscale Features from Regional Downscaling of CESM Data by WRF-Chem over Southeast Alaska**

N. Mölders, C. L. Bruyère, S. Gende, M. A. Pirhalla  ........................................ 589

**Integration of Climate Change into the Senior Secondary School Agricultural Science Curriculum in Nigeria**

M. E. Ikehi, F. O. Ifeanyieze, C. U. Ugwuoke  ................................................ 614

**Near-Field Variability of Residential Woodsmoke Concentrations**

**Application of the Soft X-Ray TSI Advanced Aerosol Neutralizer to Aerosol Measurements Made by a Grimm SMPS**

A. Nicosia, F. Belosi, B. Vazquez  ................................................................... 636
Greenhouse Gas Emissions: Contributions Made by Football Clubs in England
A. Dosumu, I. Colbeck, R. Bragg

Does the Homogeneous Ice Nucleation Initiate in the Bulk Volume or at the Surface of Super-Cooled Water Droplets? A Review
G. Santachiara, F. Belosi

An Analysis of the Cycles and Periodicities of Annual Rainfall over Awka Region, Nigeria
E. E. Ezenwaji, P. O. Phil-Eze, I. C. Enete, B. O. Osuiwu

A Study of Human Thermal Comfort, Ozone and Respiratory Diseases in Children
A. de Souza, F. Aristone, L. Fernandes

Thermal Flows in the Surface Atmosphere of the Riobamba City
A. Haro, C. Limaico, Y. Llosas

Variation of Zonal Winds in the Upper Troposphere and Lower Stratosphere in Association with Deficient and Excess Indian Summer Monsoon Scenario
V. Madhu

A Perspective of the Diurnal Aspect of Thermal Comfort in Nigeria
O. M. Eludoyin

Impact of Climate Change on Aquatic Fauna of Economic Importance in Niger Delta, Nigeria
E. I. Elenwo, J. A. Akankali

Regional Characteristics of Temperature Anomalies in Pakistan with Emphasis on Spatial Distribution at Decadal Scale: A Case Study of August (1950s-2000s)
I. Ahmad, R. Ambreen, S. Sultan, Z. B. Sun, M. Nawaz

Late Twentieth-Century Warming and Variations in Cloud Cover
J. McLean

Projecting Extreme Changes in Summer Rainfall in South America by the Middle of the 21st Century

Convective Rainfall Systems in the La Plata Basin
A. J. P. Filho, R. E. Carbone, J. D. Tuttle

The figure on the front cover is from the article published in Atmospheric and Climate Sciences, 2014, Vol. 4, No. 4, pp. 549-562 by Hüseyin Turoğlu.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

ACS aims to rapidly publish original scientific papers in all the fields of applied and/or climate atmospheric science. It covers the latest achievements and developments in the applied climate and atmospheric sciences, including but not limited to the following scopes as well as the theoretical and practical aspects of these disciplines:

- Agricultural climatology
- Air chemistry and the boundary layer, clouds and weather modification
- Air quality, atmosphere & health
- Applied meteorology
- Atmospheric acoustics, electricity, optics, physics, radiation and sounding
- Atmospheric and oceanic physics
- Atmospheric and solar-terrestrial physics
- Atmospheric chemistry
- Atmospheric environment
- Aviation climatology
- Biometeorology
- Building climatology and forestry climatology
- Climate change and broadcast meteorology
- Climate dynamics and variability
- Climate policy
- Clouds and precipitation physics
- Cosmical meteorology
- Dendroclimatology
- Dynamics of atmospheres and ocean
- Hydrology, oceans and atmosphere
- Hydrometeorology
- Marine meteorology and meteorology-associated geophysics
- Medical meteorology and medical climatology
- Meteorological, climatological and atmospheric environmental issues
- Navigation climatology
- Phenology and paleoclimatology
- Polar meteorology
- Radar meteorology and radio meteorology
- Remote sensing
- Satellite meteorology and synoptic meteorology
- Theoretical and applied climatology
- Tropical meteorology
- Weather systems, numerical weather prediction

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the ACS.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail
http://www.scirp.org/journal/acs  E-mail: acs@scirp.org
What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
