Atmospheric and Climate Sciences

Special Issue on Climatology Research

Spatial location of National Priority pests and its relation with the type of climate where it are distributed

- Presence of Asian psyllid citrus Diaporthe citri
- Presence of Locust Schistocerca gregaria gregaria
- Presence of Asian Soybean Rust Phakopsora pachyrhizi
- Presence of Pink hibiscus mealybug Macowanella hirsutus Green
- Presence of Mediterranean fruit fly Ceratitis capitata
- Presence of Citrus greening disease Candidatus Liberibacter

# Table of Contents

**Volume 4 Number 5 December 2014**

**Past, Present and Future: Urgency of Dealing with Climate Change**
A. D. Hecht

**QA/QC Procedures for in-Situ Calibration of a High Altitude Automatic Weather Station: The Case Study of the AWS Pyramid, 5050 m asl, Khumbu Valley, Nepal**
E. Vuillermoz, G. P. Verza, P. Cristofanelli, P. Bonasoni, G. Roggero, A. Merlone

**Extreme Weather and Climate Events and Their Impacts on Island Countries in the Western Pacific: Cyclones, Floods and Droughts**

**Do Increasing Contents of Methane and Carbon Dioxide in the Atmosphere Cause Global Warming?**
G. V. Chilingar, O. G. Sorokhtin, L. F. Khilyuk, M. Liu

**Dynamic Interactions in the Atmosphere**
G. Barceló

**A Regional Climate Study of Heat Waves over the Iberian Peninsula**
Hariprasad, I. Pozo, F. Ferri-Yáñez, M. B. Araújo

**Precipitation Patterns in Cape Verde Islands: Santiago Island Case Study**
G. E. Varela-Lopes, L. C. B. Molion

**Fair Plan 5: A Critical Appraisal of Five Congressional Bills to Reduce US CO₂ Emissions**
M. E. Schlesinger, M. Ring, D. Lindner, E. Cross, V. Prince

**Influence of the Tropical Atlantic Ocean’s Sea Surface Temperature in the Eastern Northeast Brazil Precipitation**
A. C. B. Amorim, R. R. Chaves, C. M. S. e Silva

**Spatial and Temporal Variability of Total Column Ozone over the Indian Subcontinent: A Study Based on Nimbus-7 TOMS Satellite**
V. Madhu

**Numerical Modeling of the Initial Formation of Cyclonic Vortices at Tropical Latitudes**
I. V. Mingalev, N. M. Astafieva, K. G. Orlov, V. S. Mingalev, O. V. Mingalev, V. M. Chechetkin

**Improved Retrieval of Sea Ice Thickness and Density from Laser Altimeter**
V. Djepa
Physical Analysis of Hail Fall Risk in Iran and the Consequent Damages on Agricultural Crops
J. B. Jamli

Climate Change and Its Influence on Agricultural Pest in Mexico
C. C. Servín, G. G. Mendoza

Consistency in Z-R Relationship Variability Regardless Precipitating Systems, Climatic Zones Observed from Two Types of Disdrometer
B. Bamba, A. D. Ochou, E.-P. Zahiri, M. Kacou

Tropospheric Circulation Variability over Central and Southern South America
O. A. Frumento, V. R. Barros

The figure on the front cover is from the article published in Atmospheric and Climate Sciences, 2014, Vol. 4, No. 5, pp. 931-940 by Carlos Contreras Servín and Guadalupe Galindo Mendoza.

Subject Coverage
This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

ACS aims to rapidly publish original scientific papers in all the fields of applied and/or climate atmospheric science. It covers the latest achievements and developments in the applied climate and atmospheric sciences, including but not limited to the following scopes as well as the theoretical and practical aspects of these disciplines:

- Agricultural climatology
- Air chemistry and the boundary layer, clouds and weather modification
- Air quality, atmosphere & health
- Applied meteorology
- Atmospheric acoustics, electricity, optics, physics, radiation and sounding
- Atmospheric and oceanic physics
- Atmospheric and solar-terrestrial physics
- Atmospheric chemistry
- Atmospheric environment
- Aviation climatology
- Biometeorology
- Building climatology and forestry climatology
- Climate change and broadcast meteorology
- Climate dynamics and variability
- Climate policy
- Clouds and precipitation physics
- Cosmical meteorology
- Dendroclimatology
- Dynamics of atmospheres and ocean
- Hydrology, oceans and atmosphere
- Hydrometeorology
- Marine meteorology and meteorology-associated geophysics
- Medical meteorology and medical climatology
- Meteorological, climatological and atmospheric environmental issues
- Navigation climatology
- Phenology and paleoclimatology
- Polar meteorology
- Radar meteorology and radio meteorology
- Remote sensing
- Satellite meteorology and synoptic meteorology
- Theoretical and applied climatology
- Tropical meteorology
- Weather systems, numerical weather prediction

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the ACS.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail
http://www.scirp.org/journal/acp  E-mail: acs@scirp.org
What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
