## Special Issue on Latest Research on Coronavirus Disease

### 2019 (COVID-19)

#### Call for Papers

Coronavirus disease 2019 (COVID-19) is a contagious disease caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The first case was identified in Wuhan, China, in December 2019. It has since spread worldwide, leading to an ongoing pandemic.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Latest Research on Coronavirus Disease 2019 (COVID-19)**. Potential topics include, but are not limited to:

- COVID-19 testing and screening
- Pathogenesis
- Diagnosis and treatment
- Transmission and control
- Prevention and public health
- Pathophysiology and immunopathology
- Virology and Immunology
- Epidemiology and risk factors
- Clinical study
- Drug safety and drug development
- Novel therapies
- Vaccine safety and efficacy
- Complications
- Health informatics and services
- Applications of digital technology
- Psychological impact
- Care and support
- Social impacts and responses

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Latest Research on Coronavirus Disease 2019 (COVID-19)**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 14th, 2021
Publication Date	August 2021
