

Special Issue on COVID-19 Research

Call for Papers

Coronavirus disease 2019 (COVID-19) is a contagious disease caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The first case was identified in Wuhan, China, in December 2019. It has since spread worldwide, leading to an ongoing pandemic.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **COVID-19 Research**. Potential topics include, but are not limited to:

- Epidemiology
- Emergence and transmission
- Emerging treatment strategies
- Virology and immunology
- Prevention and public health
- Molecular analysis
- Clinical study
- Clinical and CT feature
- Neurological implications
- Severe COVID-19 infection
- COVID-19 modeling
- Risk factors
- Vaccine
- Drug safety and drug development
- Post-COVID-19 complications
- Health informatics and services
- COVID-19 infection in children
- COVID-19 and pregnancy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – COVID-19 Research**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 7th, 2023
Publication Date	June 2023
